Shanqiang XIAO

Senior Manager

Senior Patent Attorney

China Supreme Court Appointed Attorney for Patent Litigation

Mr. Xiao is a senior patent attorney and litigator in the chemical field, who's primary technical background covers polymer, pharmacy, life science, chemical engineering and chemistry. He is also the senior manager of the Biological & Chemical Patent Division.

Since joining Beijing East IP in 2002, Mr. Xiao has been providing quality services to many Fortune 500 corporations in procuring and enforcing their IP rights in China. Through over a decade of services, Mr. Xiao gained extensive experiences in patent preparation, filing, prosecution, invalidation and reexamination before the State Intellectual Property Office (SIPO) and the Patent Reexamination Board (PRB). In addition, Mr. Xiao has abundant experiences in patent litigation matters. Specifically, he has litigated dozens of cases before the Beijing First Intermediate Court, the Beijing IP Court, and the Beijing High Court for various MNCs, including Pfizer, DSM, 3M, etc.

In addition to his practice in the chemical areas, Mr. Xiao is also experienced in prosecution and protection of industrial designs. Specifically, Mr. Xiao successfully represented various clients, including Nokia and Toyota, in many design invalidity lawsuits. Particularly, he helped Toyota to obtain its first winning judgment for designs from a Chinese court.

Mr. Xiao also counsels clients in a variety of IP related matters, including ownership, trade secret misappropriation, licensing, etc. In one particular case, Mr. Xiao represented a US company in a negotiation for patent ownership against its Chinese OEM manufacturer, and successfully helped the client retrieved the ownership of 18 design patents.

Mr. Xiao speaks English.
